Important notes

About investment switching

You can change investment options for all or part of your existing account balance and/or your future contributions. This is known as 'investment switching'.

Switches take effect on the Wednesday of each week and will only be implemented on receipt of a correctly completed *Investment switching form* before 5pm (AEST) on the preceding Sunday. The Trustee may nominate an alternative day to process a switch request and may delay or suspend switches at its discretion.

We allow a maximum of 12 switches per year per member free of charge.

Once a switch has been completed, we'll send you a letter confirming this and how much has been switched.

You can invest in one, or any combination, of the investment options – it's completely up to you. However, it's important to consider your investment objectives and tolerance to risk when deciding on your investment strategy.

A financial planner can help you to work out your investment timeframe and risk tolerance, and then determine an appropriate investment option to suit your needs. Call Member Services to make an appointment with a financial planner.
